

**Robert E. Leet and Clara Guthrie Patterson Trust
Mentored Research Award
Clinical, Health Services and Policy Research**

Bank of America, N.A., Trustee

Announcing the February 2019 Grant Cycle

Overview:

The Robert E. Leet and Clara Guthrie Patterson Trust was created in 1980 to support research “relating to human diseases, their causes and relief.”

The primary goal of the Program is to support research that focuses on the causes of human disease and/or improving treatment. To achieve this goal the Patterson Trust supports mentored clinical investigators in the early stages of their research careers to promote the pursuit of academic research careers as successful independent investigators.

The Program supports innovative research and pilot studies spanning a broad range of disciplines including both patient-oriented clinical research and translational laboratory research.
