Templates included in this document.

PROJECT SUMMARY
Maximum length: 300 words

Applicant's Name: _____

Institution: _____

Mentor's Name: _____

Title of Project: _____

Key Words: _____

Please include a 300-word summary stating the project's broad, long-term objectives and specific aims. The same Project Summary should be used for both the Online Submission and this form.

<u>MODIFIED</u> APPLICANT BIOGRAPHICAL SKETCH
DO NOT EXCEED FIVE PAGES.

NAME:

eRA COMMONS USER NAME (credential, e.g., agency login):

POSITION TITLE:

EDUCATION/TRAINING *(Begin with baccalaureate or other initial professional education, such as nursing, include postdoctoral training and residency training if applicable. Add/delete rows as necessary.)*

INSTITUTION AND LOCATION	DEGREE *(if applicable)*	Completion Date MM/YYYY	FIELD OF STUDY

NOTE: Instruction below should be deleted before final submission.

A. Personal Statements

1. Provide a brief outline of your career plans and trajectory (150 word limit). Please include how this fellowship would assist in your future research career path and describe your current job-seeking situation.

2. Briefly describe why your experience and qualifications make you particularly well-suited for your role in the project that is the subject of the application. Include a brief 2-3 sentence description of your Mentor's contribution and your level of independence on the project. If there was a lapse in your postdoctoral research experience/full-time employment, please explain here.

B. Positions and Honors

1. List in chronological order positions held since the completion of your most recent degree, concluding with your present position.

2. List any relevant academic and professional achievements and honors, such as scholarships, traineeships, fellowships, and development awards, as applicable.

C. Contribution to Science: Publications

Important! Applicants must have <u>at least one</u> primary, peer-reviewed, research article from their postdoctoral work either published or in press by the application deadline to be eligible for this award.

List all of your publications in chronological order (Most recent first)

1. Clearly distinguish post- and pre-doctoral work. **Indicate by BOLD titles, all those publications that are from postdoctoral work**. Do not BOLD those publications coming after receiving your degree but reflecting your graduate work, unless your current postdoctoral work continued in this laboratory.

2. **Indicate your five most significant publications or preprints with asterisks** ahead of each relevant citation. Under each of these citations, include a paragraph summarizing its impact and significance (300 word maximum per citation). This description may include the historical background framing a scientific problem; the central finding(s); the influence of the finding(s) on the progress of science or the application of those finding(s) to health or technology; and your specific role in the described work. These publications are not required to be related to the proposed project.

3. Include a URL hyperlink to a full list of your publications and be sure that these include the five highlighted publications or preprints cited above (such as BioRxiv, PubMed or My Bibliography.)

D. Additional Information: Research Support

List selected ongoing and completed research projects for the past three years (Federal or non-Federal support). Briefly indicate the overall goals of the projects and your responsibilities. *Do not include number of person months or direct costs.*

List any other pending research funding you have applied for.

If the applicant does not have Research Support, please write N/A.
