

CHARLES H. HOOD FOUNDATION
95 Berkeley Street, Suite 202 **Boston, MA 02116**

Child Health Research Awards Program
\$150,000 over Two Years (\$75,000 per year, inclusive of 10% indirect costs)

Application Guidelines

Award Period: July 1, 2016 – June 30, 2018

Online Application Deadline: Monday, March 21, 2016 at 12:00 Noon, Eastern Daylight Time

Up to five \$150,000 two-year grants (\$75,000 per year, inclusive of 10% overhead) will be made to researchers who are within five years of their first faculty appointment on July 1, 2016 (inclusive of previous positions in other institutions). Applicants must be working in nonprofit academic, medical or research institutions in the six New England states (Maine, Vermont, New Hampshire, Massachusetts, Rhode Island, and Connecticut).

PLEASE NOTE: There are no limitations on departmental or institutional submissions.

Statement of Purpose

The Charles H. Hood Foundation was established in 1942 to improve the health and quality of life for children through grant support of New England-based pediatric researchers. The Foundation is proud to have launched the careers of promising junior faculty whose research findings have contributed to significant improvements in child health. To-date, the Program has supported 585 Child Health Research Awards.

Research Focus

Clinical, basic science, public health, health services research and epidemiology projects must be hypothesis-driven with **relevance to child health**.

Eligibility Requirements

United States citizenship or residency is not required. **All applicants must have completed their Fellowship training at the time of application.**

The Applicant must hold a doctoral degree with demonstrated **research independence** confirmed by the Department or Division Chair. Applicants may contact the Program Officer, Gay Lockwood (GLockwood@hria.org) with questions regarding investigator-stage appropriateness. The Applicant's **potential for a lifetime career in pediatric research** is also critical in the review process. The Department or Division Chair's letter of recommendation must include an assessment of the Applicant's potential to succeed in a clinical, health services or basic science research career. In addition, the Chair must complete a form that confirms the Applicant's independence as well as the **Institution's level of commitment to the Applicant.**

A publication record substantiating the Applicant's abilities should accompany the grant submission. Although this may not be available for new areas of inquiry, a demonstrated ability to plan, execute and report research data is an important consideration in evaluating potential for future success.

By July 1, 2016, Applicants must be employed at least four days each week (0.8 full-time equivalent) at a nonprofit academic, medical or research institution in New England and be within five years of their first faculty appointment.

Applicants holding the PhD

The five-year window begins on the date of the first faculty appointment, regardless of job title or place of employment and includes all previous academic faculty positions as well as any independent research positions in a for-profit company, non-profit research institution or similar professional setting. The five-year window is deemed to begin at the conclusion of post-doctoral fellowship training.

The first paragraph of the Department or Division Chair's letter must document the dates of the final post-doc appointment. *Preference will be given to applicants who have moved out of their postdoctoral fellowship setting and have established independent research environments.*

Applicants holding the MD

The period of subspecialty training is not included in the five-year eligibility window regardless of academic appointment. For subspecialists, the five-year window begins at the completion of an ACGME-certified subspecialty training program, or the equivalent for generalist fellowships.

The first paragraph of the Department or Division Chair's letter must document the start date of the fellowship, the date when fellowship training was completed, and the total number of years the Applicant served as faculty following completion of fellowship training.

Occasionally, MDs or MD/PhDs may undertake formal postdoctoral fellowship training. Those individuals should briefly describe the nature of the postdoctoral

fellowship, and may apply using the criteria for PhD applicants.

Gaps in Work History, including Family or Medical Leave

Regardless of degree, if an Applicant has been on medical or family leave, or if research was interrupted for other reasons, this period of absence does not count towards eligibility. **Please address any gaps in work history** in the Personal Statement on the Biosketch. The Department or Division Chair's letter must also confirm both the duration of the leave of absence and Applicant eligibility.

Minimum Percent Effort

All Applicants are required to devote at least 20% effort to the proposed Hood research project. Scientific overlap with already funded projects is permissible if there is justification that existing funding does not adequately cover the full cost of the proposed Hood project. Percent effort may exceed the percent of total salary support requested from the Hood Foundation.

NEW Resubmission Policy for 2016

All applicants will receive written feedback from the Committee. Applicants, upon reviewing this feedback, may choose to reapply once during the next two semi-annual grant cycles. Please note that the resubmission will be considered alongside all other submissions received during that grant cycle; no special preference will be given to resubmissions. Applicants must meet the Eligibility Requirements at the time of resubmission.

Concurrent, Pending and Post Award Funding

Child Health Research Awards are for the purpose of jump-starting an investigator's career and are not intended for the support of an established investigator.

Current Federal and Non-Federal Support

Applications may hold a K Award or be in the R00 phase of a K99/R00 as long as those Award amounts, combined with other funding, do not exceed the limits noted below.

Applicants are ineligible if, at the time of application, they have **combined federal and non-federal funding** totaling \$450,000 or more in direct costs during the first year of the Hood Award. This figure refers to external funding only and not an Applicant's start-up package, other intramural support, or the Hood Award.

Applicants are ineligible if they are currently or have previously been designated as Principal Investigator or Co-P.I. on an R01, P01, Pioneer Award, New Innovator Award or similar large awards from other federal agencies or national foundations.

Pending Federal and Non-Federal Support

Applicants who have pending R01s or other large applications to the NIH and other agencies are encouraged to submit proposals to the Hood Foundation.

If **notified on or prior to** April 8, 2016 that they have been successful in securing federal or non-federal grant support that, combined with other support, totals \$450,000 or more in direct costs during the first year of the Hood Award, applications to the Program will be ineligible for review. Notification of funding **after** April 8, 2016 will not impact eligibility for a Hood Award. **It is the responsibility of applicants to contact GLockwood@hria.org as soon as they are notified of any new funding.**

Award Selection Criteria

As previously noted, Applicants must be independent and show potential for a future career in research relevant to child health.

The following criteria are also used to evaluate applications:

1. a clearly stated hypothesis, based on sound precedents and supported by relevant literature;
2. objectives that are technically feasible;
3. personnel who are qualified to carry out the proposed research; and
4. adequate project and institutional support.

Typically, 20% of submissions are funded.

Notification to Applicants

The online application system will notify applicants once the upload is received. Final notification to Award Recipients will occur in June by telephone followed by an emailed Award Agreement. Other applicants will receive email notification.

Please Note: If the Applicant is unable to accept the Award, the Award will not be transferred to another investigator involved in the research project.

Publications

Publications or presentations resulting from research funded by this Award must acknowledge support from the **Charles H. Hood Foundation, Inc., Boston, MA.**

Terms of the Award

Please download "Terms of the Award" from www.tmfgrants.org/Hood for information regarding use of the Award funds, indirect costs, payment schedule, reporting schedule, and other Awardee and Institutional requirements.

A listing of prior **Award Recipients** and their research summaries as well as **Frequently Asked Questions** may also be found at this site.

Application Instructions

ONLINE APPLICATION DEADLINE

March 21, 2016 (12:00 Noon, Eastern Daylight Time)

Before beginning the online submission, download and save the “Application Forms” which can be found at www.tmfgrants.org/Hood.

Use one of the following links to begin or continue the application process:

Start a new application: www.grantrequest.com/SID_738/?SA=SNA&FID=35037

Return to a saved application: www.GrantRequest.com/SID_738?SA=AM

The following sections must be completed for the online submission:

1. **Institution’s Tax ID Number**
 2. **Eligibility Quiz**
 3. **Application Data:** Institution where proposed research will be conducted, Applicant’s contact information and educational background
 4. **Research Project Information:** Project title, key words, scientific and non-technical project summaries
 5. **Certification:** Applicant’s initials to confirm accuracy of submitted information
 6. **Research Classification +**
 7. **Research Area +**
- + Research Classification and Research Area are used for administrative tracking purposes only and not used in the scientific review.*
8. **Letters of Recommendation:** Follow the online instructions for obtaining your letters of recommendation
 9. **Attachment (Document Upload):** The documents and forms listed in items *i – x* must be combined and converted into ONE PDF file in the order below for upload. Name this document “LastName, FirstName.pdf” (e.g., Doe, Jane.pdf). Make sure all pages are numbered sequentially starting with the Face Sheet as Page #1. Items xi – xiii are submitted confidentially.
 - i.* **Application Face Sheet:** The Application Face Sheet must be completed (type all information) and signed by the Applicant as well as the Authorized Institutional Representative administratively responsible for research oversight. The contact information for the Institutional Officer to Receive Funds must also be included. The Face Sheet is Page #1 of the Upload.
 - ii.* **Table of Contents:** Follow the Table of Contents and **number ALL pages consecutively**. The Table of Contents is page #2.
 - iii.* **Research Project Summary and Performance Sites:** Complete this form

according to the instructions at the top of that page. This summary will be posted on our website if the project is funded (*maximum of 300 words*).

- iv. **Non-Technical Project Summary:** Prepare a lay-language description of the proposed research that can be understood by the general public (*maximum of 350 words*).
- v. **Applicant Independence / Institutional Commitment Form:** The Department or Division Chair must complete this form and forward it to the Applicant for upload. Instructions for the Chair's letter of recommendation (*to be submitted confidentially*) are included on this form.
- vi. **Applicant Biosketch:** Use the latest NIH Biographical Sketch form (http://grants.nih.gov/grants/funding/424/SF424R-R_biosketchsample_VerC.docx). Make sure that all active and pending support matches the support listed on the "Current and Pending Support" Form included with the Hood Application Guidelines.
- vii. **Current and Pending Support:** Use a separate form for each active or pending grant. If the grant is pending, include the date of notification. **If the Hood Applicant is the PI on any current or pending grant, the Total Grant Amount (direct costs only) must be included when calculating "Total Active Grants" and "Total Pending Grants."** **If the Hood Applicant is not the PI, include only those direct costs allocated to the Applicant's research.** Clearly describe any scientific or budgetary overlap with the proposed Hood project and outline a plan to avoid duplication of funding.
- viii. **Budget Forms A1 – C:** Complete these forms for both years of the project. For projects whose total costs exceed \$75,000

per year, list the other sources of support on Form B. Indirect costs (institutional overhead) may not exceed 10% of direct costs or up to \$6,818 per year. Total support from the Hood Foundation, including overhead, is \$75,000 per year. Please refer to "Terms of the Award" for budget guidelines.

- ix. **Research Proposal (maximum of 6 pages, excluding the bibliography of references):** Proposal sections include Specific Aims; Background and Significance; Preliminary Data (*if available*); Research Design, Experimental Methods and Analytical Plan; Potential Limitations and Contingencies; Expected Outcomes and Future Directions; Relevance to Child Health; Project Timeline; and Bibliography. Any figures, graphs, tables, and images must be included within the six pages.

If human or animal subjects are involved, justification of the sample size and a power calculation must be included.

Format this section with **Arial 11** as the typeface and size. Use single or double line spacing within paragraphs, double line spacing between paragraphs, and one inch or larger margins on all four sides. Figures, legends and tables may use a smaller font size. Include the Applicant's name at the top of each page.

- x. **Letter(s) of Collaboration / Confirmation of Outside Resources:** Collaboration letters must be forwarded to the Applicant for inclusion in the document upload. Applicants are required to submit letters confirming the availability of resources outside their institutions, and a letter confirming any significant collaborative relationship, either within or outside the Applicant's institution. These are brief

letters (**up to one page**) addressing the collaboration.

xi. **Recommendation Letter from Department or Division Chair** *(submitted confidentially through the online application system)*

xii. **Letter from Postdoctoral Mentor or Residency Director** *(submitted confidentially through the online application)*

system): This letter should also include a section that addresses the Applicant's potential to succeed in a health services, basic science or clinical research career.

xiii. **Optional Recommendation Letter** *(submitted confidentially through the online system)*

(1/2016)
