

Child Health Research Awards Program

The Charles H. Hood Foundation was incorporated in 1942 to improve the health and quality of life for children throughout New England. Today's research projects encompass many disciplines that have contributed to discoveries in pediatric medicine while launching the careers of promising junior faculty. The intent of the Award is to support newly **independent faculty**, provide the opportunity to demonstrate creativity, and assist in the transition to other sources of funding. **Research projects must have direct relevance to child health.**

Online Application Deadline

- Monday, March 29, 2021 at 12:00 Noon, Eastern Time
