Overview:

The Jeffress Memorial Trust was founded in 1981 by Robert M. Jeffress in memory of his parents and is guided by its mission to benefit the people of Virginia and their research in chemical, medical or other scientific fields.

The Jeffress Trust awards support high impact, innovative one-year projects that integrate computational and quantitative scientific methodologies across a broad range of scientific disciplines.

This year the Hazel Thorpe Carman and George Gay Carman Trust may offer an additional award in support of one project that meets the criteria of the Jeffress Program and is relevant to the funder's focus of either blood disorders or mental health.

Eligibility:

Applicants must:

- Work as a full-time faculty member at a non-profit academic or research institution in Virginia
- Have completed no more than seven years since their first faculty appointment as of June 30, 2018
- Propose a project in an eligible research area, including astronomy, biosciences, chemistry, computer sciences, engineering, environmental sciences, material science, mathematics and physics.
