

Community Health Improvement Services

Health Resources in Action (HRIA) is an experienced provider of a comprehensive suite of community health improvement (CHI) services and partners with hospitals, health systems, and community collaboratives throughout the U.S. to improve the health and wellbeing of their surrounding communities. HRIA's tailored, collaborative approach is grounded in health equity, ensuring authentic engagement and powerful community-informed results.

CHI Services

HRIA's flexible and customizable services provide our clients with a spectrum of support, from addressing urgent needs to maximizing community investments over time, embedding our experience in community health, health equity and social determinants of health (SDOH) throughout the process. Partnering with HRIA allows your organization to tap into our broad and deep expertise.

HRIA can help your organization with:

- ✓ IRS 990
- ✓ State Attorney Generals Offices
- ✓ Public Health Accreditation Board (PHAB)
- ✓ Determination of Need (DoN) processes

Organizational Effectiveness*

HRIA has partnered with many different institutions on community health assessments, community health improvement plans, and strategic implementation plans. Our expertise includes work with:

- Acute care hospitals
- Academic medical centers
- Health departments
- Community collaboratives
- Federally qualified health centers
- Specialty institutions, like cancer centers.

HRIA offers clients unique insight into the current trends and best practices taking place nationally and in other communities, as well as lessons learned.

Health Equity Framework

At HRIA, our health equity framework centers on racial equity, guiding our internal policies and processes as well as our work with communities, partners, and clients. This framework builds upon three foundational components to operationalize and advance health equity. Together with our clients, we:

- Challenge assumptions and narratives about what promotes and hinders health
- Create and sustain authentic and diverse stakeholder engagement, and
- Strengthen capacity to correct power imbalances and address inequities.
