**HEALTH
RESOURCES
IN ACTION**

The Geneen Charitable Trust Awards Program for Coronary Heart Disease Research is administered by The Medical Foundation at Health Resources in Action

Program Focus and Overview

The Harold S. Geneen Charitable Trust Awards Program for Coronary Heart Disease Research supports research in the area of the prevention of coronary heart disease or circulatory failure and improving care for these patients. The Program focuses on basic and translational scientific research. Clinical studies are currently ineligible.

Applications examining the intersection of coronary heart disease and/or congestive heart failure and COVID-19 or similar viral illnesses are highly encouraged to apply.

Eligibility

In accordance with Mr. Geneen's directives, the Program supports smaller, mid-sized institutions. **Each invited institution may only submit one application from a full-time faculty member.** Junior faculty and those with less than \$500,000 in direct costs funding at the time of application, are encouraged to apply. United States citizenship is not required.
